ENVIRONMENT & EDUCATION

CENTER FOR SUSTAINABLE ENVIRONMENT & EDUCATION

*Empowering Sustainable Futures Through Innovation,
Education and Community Action*

"Join us in building a Cleaner, Greener & Healthier India"

www.csee.in

CSEE is a leading non-profit think tank in India, promoting environmental sustainability through science, technology, education & community action. Founded by Researchers from key Government of India institutions, it is a registered entity under the Telangana Societies Act, 2001.

VISION

To drive innovative, scalable solutions that address environmental challenges, promote clean energy, enhance climate resilience & support sustainable livelihoods.

MISSION

To advance interdisciplinary research, sustainable education and community programs for a net-zero, climate-resilient future

OBJECTIVES

- Promote renewable energy and low-carbon solutions.
- Drive research on sustainability & environmental issues.
- Conduct capacity building and awareness programs.
- Collaborate with academia, government and Industry.
- Empower communities through sustainable models.

FOCUS AREAS & FLAGSHIP PROGRAMS

CSEE transforms environmental challenges into practical, community-based solutions through science, innovation & partnerships.

1. Climate Change & Net Zero
2. Air Pollution & Public Health
3. Disaster Risk Reduction
4. Sustainable Agriculture
5. Geo-Resource Management
6. Sustainable Education
7. Clean Energy

SOLAR-POWERED FISHING BOATS

CSEE, in collaboration with National Institute of Solar Energy, New Delhi is launching a clean-tech solar fishing boat prototype at Uppada Harbour, Andhra Pradesh—advancing sustainable marine livelihoods & reducing emissions.

Prototype ready for Coastal future green Fishing Activities
Join us in scaling solar-powered fishing across India.

SATELLITE-BASED BURNT AREA ASSESSMENT & EMISSION ESTIMATION

CSEE leverages satellite data and remote sensing to monitor stubble burning, estimate emissions & promote sustainable alternatives to reduce air pollution & carbon output.

GREEN WHEELS PROJECT

“Steering Women Towards a sustainable Future”

Green Wheels empowers rural women with electric auto-rickshaw driving skills for sustainable self-employment & reduction of greenhouse gas emissions.

CLIMATE CHANGE OUTREACH FOR EDUCATORS & STUDENTS

CSEE partners with institutions like PACE, DARE, VIT, Osmania University and others to deliver accessible, action-oriented climate education across schools and colleges.

JOIN THE MOVEMENT WITH CSEE

Together with researchers, industry & policymakers for clean Air and sustainable future.

KEY INITIATIVES

- Community Based Disaster Preparedness
- Disaster Action Plans, Urban Floods, Heat Waves, Thunderstorms, Forest Fires
- Train the - Trainer Program: Teachers & Processors

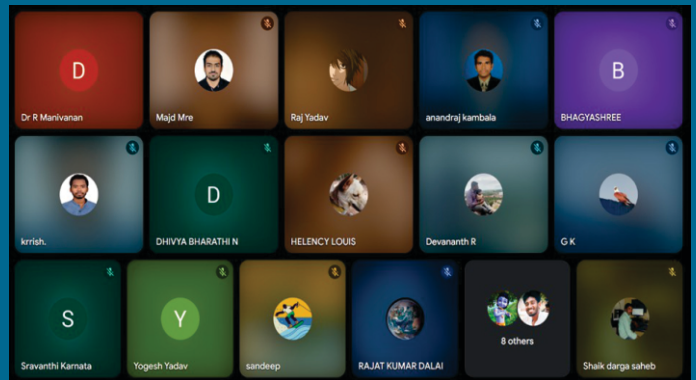

CSEE
Learn. Build.
Innovate.

ADVANCED ONLINE COURSES

Building Scientific Skills for a Sustainable Development Goals

CSEE offers certification-based online courses tailored for students, PhD aspirants, and young scientists in environmental & sustainability sciences. Each course combines expert-led sessions with practical demonstrations to foster real-world application and innovation.

KEY HIGHLIGHTS

- Expert Scientists from Reputed Institutions, ISRO, IIT'S, IMD, MOES, BARC, Etc
- Practical model-building and demonstrations
- Open to students, professionals & early-career researchers

*Empowering the next generation of environmental leaders
through applied science and skill development.*
